

GENERAL EDUCATION

As a liberal arts college, Benedictine College is dedicated to providing a liberal arts education by means of academic programs based on a core of studies in the arts and sciences. Through these programs, the college guides students to refine their capacity for the pursuit and acquisition of truth, to appreciate the major achievements in thought and culture, and to understand the principles that sound theoretical and practical judgment require.

The general education program seeks to achieve these goals by dividing the general education requirements into three categories: Core, Foundations, and Skills/Perspectives.

The Core

The Core courses are classes that all students take. They are courses designed both to lay the foundation for a successful academic career and to clearly and explicitly communicate the mission of the College.

Foundations

The Foundations are where Benedictine College most explicitly focuses on transmitting the specific purposes of the general education program: to refine students' capacity to pursue and acquire truth; to help them to appreciate the great achievements of thought and culture; and to develop their capacity to understand the principles of sound practical and theoretical judgment. The College does not require courses to be from specific departments (for example, history), but rather looks at the subject of the course (for example, art history or economic history also provide students with an "historical inquiry" and thus fulfill the foundation). Benedictine College believes that it is essential that students are exposed to a wide variety of perspectives, thus even though a course may be listed in two different Foundations, each course can only be applied to one Foundation.

Students must take courses that meet the following foundations:

Code	Title	Hours
	Aesthetic Experience	6
	Faith	6
	Historical Inquiry	6
	Mathematical Reasoning	3
	Person and Community in the Contemporary World	3
	Philosophical Inquiry	6
	Understanding the Natural World (including one lab) (Must be taken in two different disciplines.)	7
Total Hours		37

Skills and Perspectives

The Skills and Perspectives courses are designed to ensure that the students are exposed to a variety of perspectives and learn the essential skills they will need for a successful life after college. Because the College believes that these things can be accomplished in a variety of ways and in almost any discipline, the intention is that they can be met through the general education program or the major, without any additional required hours. Students can be credited with up to three Skills and Perspectives (and one Foundation) in one course.

Code	Title	Hours
Skills and Perspectives		
	Global Perspective (1 course)	1
	Oral Communication (1 course)	1
	Scientific Method (1 course)	1

Transfer Students

Transfer students who have an Associate of Arts degree, an Associate of Science degree, or who transfer in 60 or more credit hours when they begin their studies at Benedictine College can complete the general education requirements as follows. (Note that none of these 60 hours

may be from A.P., I.B., CLEP, or placement exams. All must be earned from a college or university.)

(Beginning freshmen who matriculate first to Benedictine College after high school graduation, even if they have an associate's degree or transfer in 60 or more hours, are responsible for completing the entire general education program.)
